

Helm CONNECT :: Compliance

Meet Audits

Manage your entire audit process from beginning to end, including non-conformities and corrective actions.

- Build custom audit templates
- Schedule and track your internal and external audits with our easy-to-use audit dashboard
- Manage your list of findings and assign each one a corrective action
- Manage all the corrective actions resulting from forms or audits completed in Helm CONNECT
- Maintain a full history of all completed audits, including associated findings and corrective actions

"We switched over to Helm because it is the most user friendly vessel operations software program I have come across and I think we have demoed or used in combination all of them. We also chose Helm because they seem to have the best support."

- **John Stewart**
Vice President, Magnolia Fleet
