

Helm CONNECT :: Compliance

Meet Forms

Build, maintain, and distribute your own custom forms.

- Replace paper forms onboard your assets
- Create your own custom forms and publish them to your assets
- Use version control to ensure your assets always have the latest revision of each form
- Use email notifications to notify shore users when asset forms are submitted
- Report on and track completion of all scheduled forms

"We switched over to Helm because it is the most user friendly vessel operations software program I have come across and I think we have demoed or used in combination all of them. We also chose Helm because they seem to have the best support."

- **John Stewart**
Vice President, Magnolia Fleet
