

Helm CONNECT :: Maintenance

Meet Inventory

Track inventory across your assets, manage part usage, and simplify request tracking.

- Manage part and component inventories in warehouses and on your assets
- Easily transfer parts and components between assets
- Track part usage through deductions on maintenance tasks
- Simplify the request process between your crew and shore
- Link requests for parts and services to maintenance tasks

"[We chose Helm CONNECT because] we were unhappy with our current system and Helm seemed more streamlined and user friendly for both vessel crew and office staff. Our crew is more eager to learn and use it - the storage of information is much cleaner and more accessible than before."

- **Joshua Vanasse**
Assistant Engineer, Curtin Maritime
