

Helm CONNECT: Jobs

Meet Billing

Capture all possible revenue using our powerful automated billing engine.

- Use our powerful billing engine and flexible tariff and contract entry to eliminate lost revenue from missed surcharges
- Create customized invoice and credit styles
- Separate duties along the billing life cycle by setting up specific roles with permission to approve billing, create invoices, issue reversals, etc.
- Use the Helm CONNECT API to integrate with external AR systems

"We switched over to Helm because it is the most user friendly vessel operations software program I have come across and I think we have demoed or used in combination all of them. We also chose Helm because they seem to have the best support."

- John Stewart
Vice President, Magnolia Fleet
