

Helm CONNECT: Jobs

Meet Event Logs

Track and report on the activities and events carried out by your assets and their crew.

- Replace your log book with customized logs based on your organization's unique reporting requirements
- Report on the event logs and activities submitted across your fleet
- Create customized log templates for each division
- Use custom fields in your log templates to record anything from vessel location to cargo temperature
- Track and report on unplanned events, such as standby time during a job
- If you subscribe to Helm CONNECT Maintenance, configure selected inspections, surveys, or maintenance routines to be automatically added or removed from your assets' To Do lists, depending on each asset's logged activity
- If you subscribe to Helm CONNECT Compliance, configure selected forms to be automatically added to your assets' To Do lists when they're triggered by specific event types

"[We chose Helm CONNECT because] we were unhappy with our current system and Helm seemed more streamlined and user friendly for both vessel crew and office staff. Additionally it seemed the Helm crew was very helpful and updates were plentiful (as well as room to grow alongside our company). Our crew is more eager to learn and use it - the storage of information is much cleaner and more accessible than before."

- **Joshua Vanasse**
Assistant Engineer, Curtin Maritime
